

COURSE OUTLINE

SCH3112 – BASIC ORGANIC CHEMISTRY FOR ENGINEERS

FORMERLY KNOWN AS:

FCE 182/ FEB 106/ FME 152/ FPE 152 - CHEMISTRY 2 (ORGANIC CHEMISTRY)

PART 1: Significance of:

- saturated and unsaturated hydrocarbons,
- phenols, alcohols,
- ketones,
- aldehydes,
- organic nitrogen compounds,
- organic halogen compounds;
- structures and characteristics of carbohydrates,
- Proteins.

PART 2: Applied Chemistry:

- Introduction to polymer science,
- hard and soft water (causes and treatment),
- electrochemistry,
- the nitrogen cycle,
- fuels,
- fertilizers,
- soaps and detergents,
- Aerobic and anaerobic digestion.
